Open House: QCRI's Creative Space

20May2017

- *11:00 AM - 01:00 PM*
- Qatar Computing Research Institute, Education City

An Open House will be held for children aged from kindergarten to grade 12 at HBKU's Qatar Computing Research Institute (QCRI). Activities to be held will include creating a bubble machine, making electric cards, developing mobile apps, inventing games using Makey Makey and learning about the Arduino platform to automate activities.

For more information on QCRI, visit www.qcri.org.qa.
