Workshop: Science Education in the Muslim World

09Dec2017

- 09:00 AM - 07:00 PM
- Conference Room 1, College of Islamic Studies building, Education City

About Event

This workshop examines the modern history of science education in the Muslim world.

It analyzes the impact of recent reforms in science education across the region, and examines the ways in which science and religion have been integrated in current school and university curricula.

The workshop will be conducted in English and Arabic.
