Workshop: Translation Technologies: Mastering SDL Trados

10 Dec2017

13 Nov2017

- 04:00 PM - 07:00 PM
- [College of Humanities & Social Sciences](#)
- Room A019B, LAS Building, Education City

About the Event

A training workshop on CAT tools – computer applications that facilitate translation by providing a platform that assists with automatic translations.

CAT tools play an important role in storing previous translations into a database, together with the original texts, and hence increase productivity and improve translation quality.

This workshop is conducted in English and Arabic.
