

Criminal caught with illicit narcotic

A Doha Criminal Court has sentenced an Eritrean man to 10 years in jail and a fine of QR200,000 for the possession of the illicit drug hashish. Local Arabic daily *Arrayah* reported yesterday that the court also ordered his subsequent deportation. The case was brought to the attention of the authorities when a source reported to the Drug Prevention Department that the defendant had offered him a quantity of hashish for QR4,500.

The source contacted the defendant for the delivery details. The defendant told him to receive the illicit drugs from a garbage bin located at a certain place and place the money into an empty packet of cigarette. At the designated time and place, the delivery took place at under the surveillance of police patrols. As soon as the defendant picked up the money, police arrested him, searched his car and recovered the money. The narcotic involved in the transaction was 100gm of hashish.

Winners of the astronomy Olympiad.

‘Bright Spark’ seeks to inspire students

The Qatar Biomedical Research Institute (QBRI) and the Qatar Energy and Environment Research Institute (QEERI), two of Hamad Bin Khalifa University (HBKU)'s national research institutes, came together to organise a special two-day event - ‘Bright Spark’ - for high-school students.

With the support of the Ministry of Education and Higher Education, the event saw the involvement of more than 300 students - the majority of whom were Qataris - from 72 schools, participating in the Qatar National Astronomy Olympiad (QNAO) and the Qatar Brain Bee Competition (QBBC).

The event offered talented secondary students the opportunity to shine both domestically and globally, competing for the chance to represent Qatar in international versions of the competitions.

While QNAO aimed to foster interest in astronomy and astrophysics and QBBC aimed to enrich, evaluate and examine high school students' knowledge of brain sciences, both competitions sought to inspire ambition among Qatari high-school students.

Students from Mosaab Bin Omair Secondary Independent School for Boys, Ayesha Bint Abi Bakr Secondary Independent School for Girls, and Ibn Taymiya Secondary Independent School won the grand awards for creative and innovative

Winners of the Brain Bee competition.

projects presented at the QNAO.

The results of the brain bee were also announced, with Raya Makarim, from Bright Future International School, taking first place in the competition and winning the opportunity to travel to Copenhagen, Denmark, for the International Brain Bee Competition. Makarim, along with Rama Raed Ammuri and Tala Abu Samaan, the second and third place winners, from Al Bayan Secondary Independent School for Girls, also won the opportunity to learn more about neuroscience and engage with researchers at QBRI's labs.

Started by a team of scientists from QEERI's Fascination Astronomy Programme, a project funded by the Qatar National Research Fund (QNRF), the Qatar National Astronomy Olympiad was born out of a desire to use astronomy as a gateway to the sciences for students in the

country. The programme organised visits to 120 schools in Qatar in the fall of 2015 and engaged students in various hands-on astronomy activities.

The outreach efforts led to the creation of 80 Astro Clubs across the country, started by inspired students and teachers. Thirty-five of the clubs participated in the Olympiad with students completing projects around various topics related to astronomy and presenting their work in the presence of a group of judges from QEERI.

In addition to the awards distributed, a group of 20 students will soon be selected from among the participants to undergo three more months of intensive training by QEERI specialists, as the institute determines the final team who will represent Qatar at the International Olympiad on Astronomy and Astro-

physics to be held this December in Bhubaneswar, India.

The QBBC, the first of its kind in the Middle East, received more than 377 applicants from 37 schools to compete for the top three spots and represent Qatar in the International Brain Bee 2016.

Dr Omar El-Agnaf, acting executive director of QBRI, said: “We are extremely proud of all of the students who took the initiative to participate in Qatar Brain Bee competition, as well as the teachers and parents who have supported them through this journey”

Dr Khalid al-Subai, QEERI's acting executive director, said: “We are very proud to host the first Astronomy Olympiad in Qatar. Being part of an Astronomy Club and preparing for the National and International Astronomy Olympiads can be a very inspiring experience for students.”

“What we have seen here is tangible evidence of the success of investing in research and I am sure that we are looking at the next generation of outstanding researchers,” said Dr Abdul Sattar al-Taie, executive director of QNRF.

Dr Asmaa al-Muhannadi, head of the Scientific Research Team at the Ministry of Education and Higher Education, said the competitions allowed high school students to explore new fields in the sciences and be trained by experts in astronomy and neurosciences.

TENDER FOR LONG-TERM ENGAGEMENT MODEL & PRICING AGREEMENT FOR ICT NETWORK INFRASTRUCTURE

The Supreme Committee for Delivery & Legacy (SC) invites expressions of interest (EOIs) from original equipment manufacturers (OEMs) to receive the tender for Long-Term Engagement Model & Pricing Agreement for ICT Network Infrastructure for all SC competition and non-competition venues within the State of Qatar. The OEMs must supply the ICT infrastructure equipment listed in the tender and have a proven track record of being leaders in manufacturing and delivering such ICT infrastructure.

Tender Title	Tender Number	Deadlines
Long-Term Engagement Model & Pricing Agreement for ICT Network Infrastructure	TDO-16-TTC-0014	Expression of interest submission date 28 April 2016

ICT objectives are as follows:

- Support the logistical operations of the event with technology to improve overall efficiency.
- Reach a high level of service integration with various stakeholders within the country.
- Provide spectators with state-of-the-art solutions to result in an unprecedented experience.
- Achieve a technology footprint that will build a long-lasting legacy and make the country a prime venue for major sporting events.

Who should respond?

- Applicant must be the OEM of the ICT equipment being proposed.
- Applicant must have and provide evidence of a global presence, with two or more local partners in Qatar with the ability to design, build and support the entire line of products.
- The applicant must have implemented the proposed solution in Qatar, with the ability to scale it up to large enterprises like government entities, banks and telecommunication companies.

Tender process:

- Applicant should register its interest by submitting an EOI letter, along with an accompanying copy of a valid commercial registration, by email to LTICT@sc.qa.
- Upon receipt, only suitable applicants will be issued a confidentiality agreement (CA).
- Applicants will return a completed CA to the SC by email to LTICT@sc.qa and issue a hard copy of the above documentation to the address below:

Supreme Committee for Delivery & Legacy
Capital Procurement – Technical Delivery Office
Al Bidda Tower, 34th Floor
Doha, State of Qatar
PO Box 62022

- Upon receipt of a conformant CA, the applicant will be issued a copy of the tender via email.
- Requests for tender documents after the closing deadline for the EOI will not be accepted.
- The decision to issue tender documents to an applicant rests solely with the SC.
- Any queries in relation to this tender should be addressed to LTICT@sc.qa.

Qatar Ports Management Company-MWANI QATAR
